

Achillea lanulosa
"Yarrow"

A dried plant specimen of Agrostemma githago, showing a single upright stem with a few narrow, lanceolate leaves. At the top of the stem is a single, partially opened purple flower. Below the main stem, there is a smaller, developing flower head.

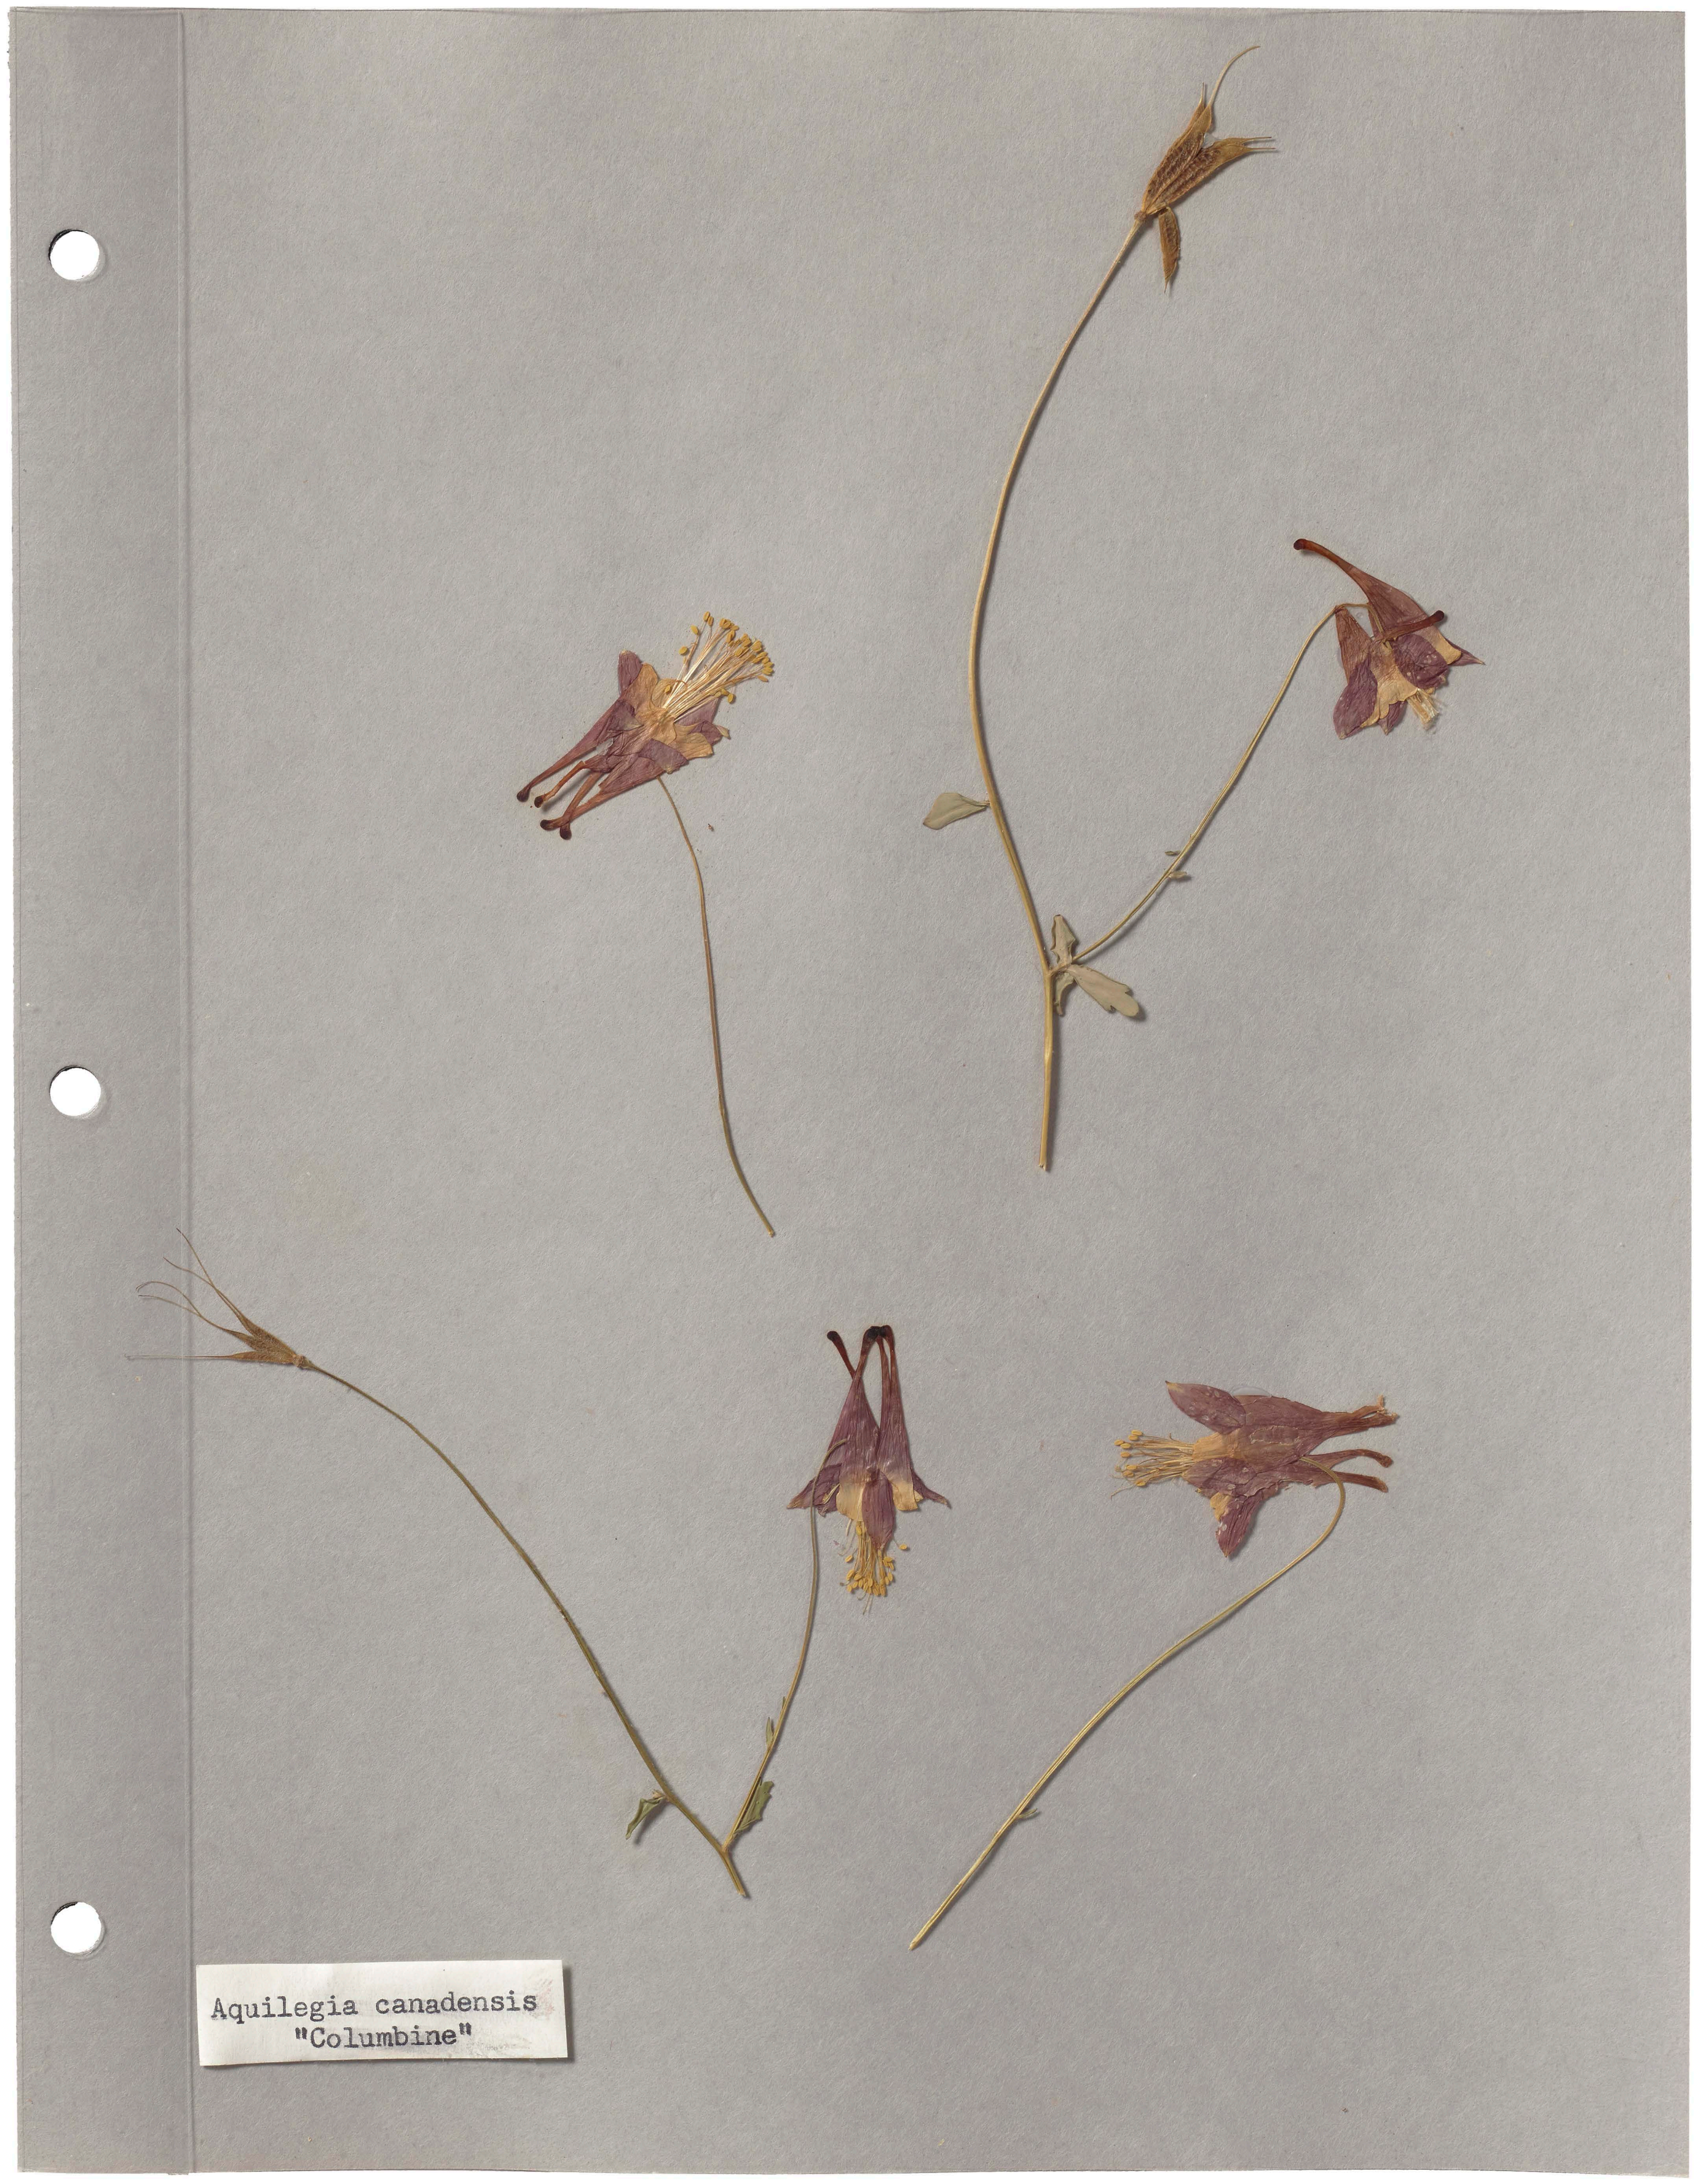

Agrostemma githago

A dried plant specimen of Antennaria neglecta, showing a single upright stem with a few narrow, lanceolate leaves. At the top of the stem is a cluster of several small, white, fluffy flower heads.

Antennaria neglecta
"Pussy Toes"

Anemonella thalictoides

Aquilegia canadensis
"Columbine"

Chrysanthemum leucanthemum
"Daisy"

Hesperis matronalis
"Dame's Rocket"
"Mother -of-the Evening"

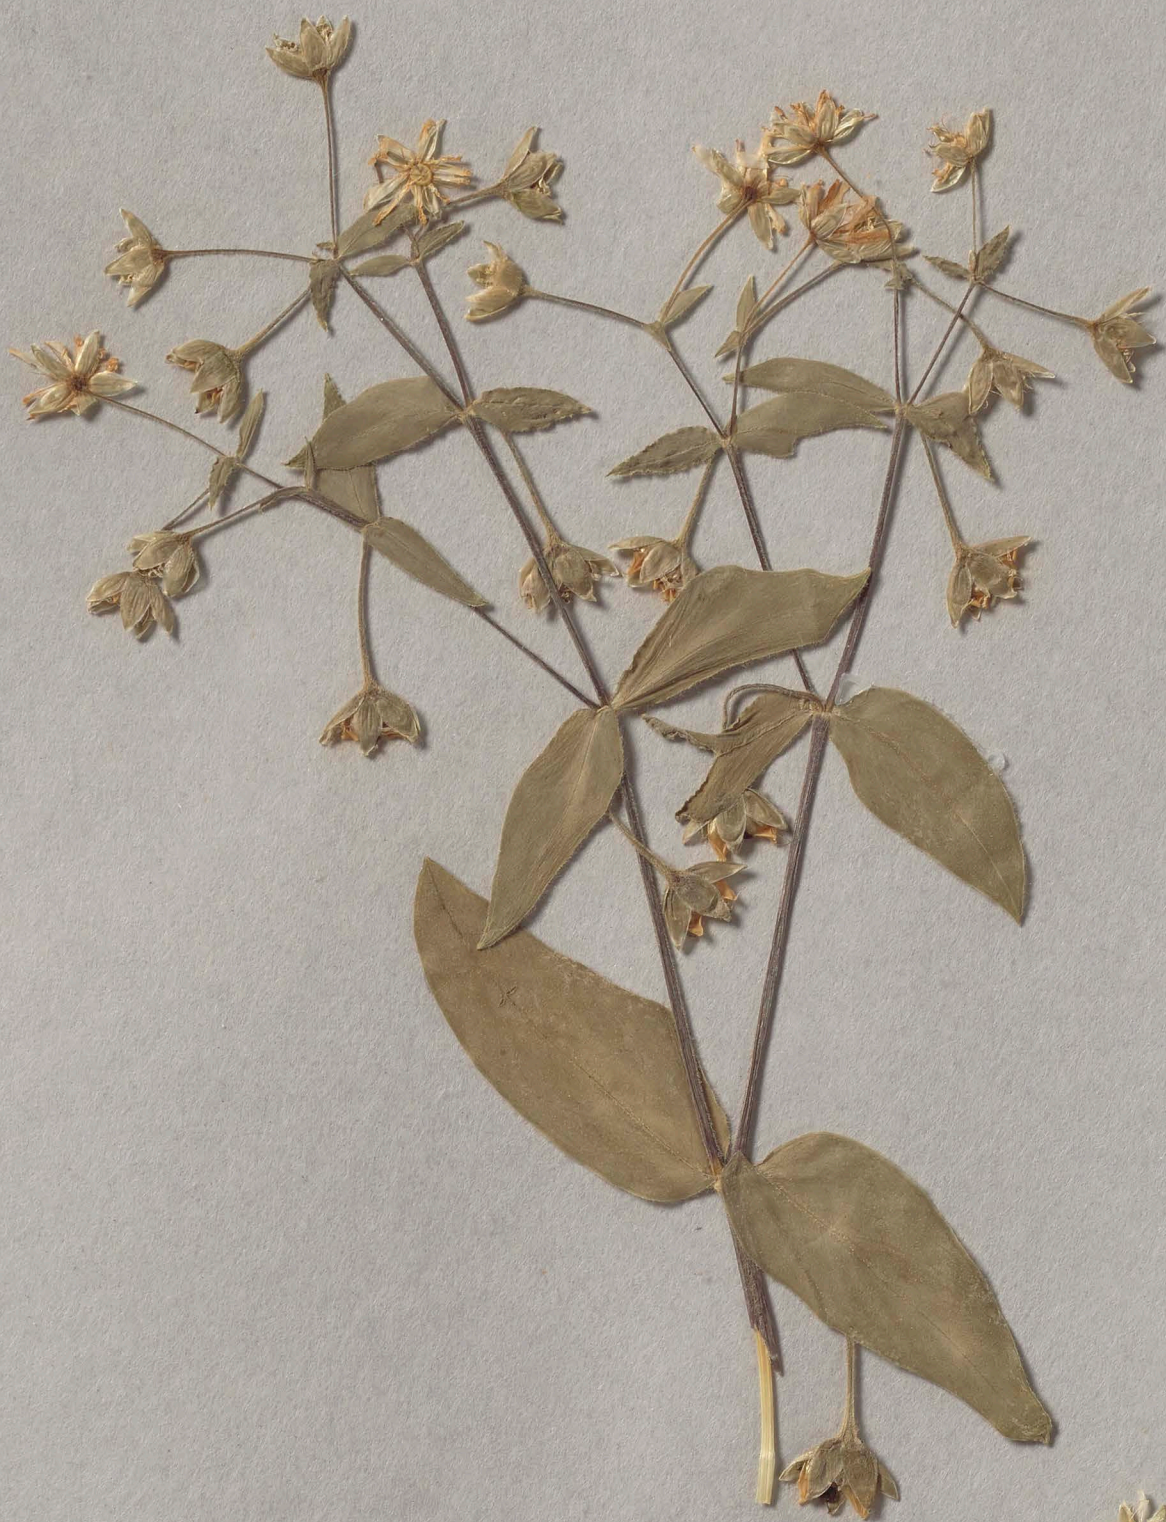

Osmorhiza longistylis

Sweet Anise

Geranium maculatum
"Wild Geranium"

Stellaria pubera
"Star Flower"

Podophyllum peltatum
"May Apple"

Sinecio obovatus

Smilacina racemosa
"False Solomon Seal"

Trifolium pratense
"Clover"

Wild Phlox

A dried botanical specimen of Viola blanda, showing several thin, brown stems with small, five-petaled flowers. The flowers are a pale yellowish-brown color, with some showing faint purple markings. The stems are long and slender, with some showing small, narrow leaves. The specimen is mounted on a light gray background.

Viola blanda
Viola papilionaceae
"Violets"

Viola pensylvanica
"Yellow Violet"
